# Spring Break Camp

Tuesday April 10th-Friday April 13th 2012

## Hatchlings and Sprouts Ages 3.5-6 9:30AM-NOON

There is a beginning place for all things, and in this very special place of mystery and wonder, we explore seeds and baby animals. We'll plant seeds to grow a living play-house, make a butterfly observation house, and visit the woods, fields and wet places to find and observe their living newborns. We'll provide nest helpers for parent birds and learn how they care for their very hungry babies. We'll make pressed flower cards, play games that help us know what it's like to be a small animal in a big world, and discover what all living things need to grow and change. Good beginnings in the outdoors start here!

## Eco Imaginations Ages 6-10 1-3:30PM

Exploring and imagining drive this week of pure, outdoor fun. Signs of spring will inspire stories, poems, music and pictures. Children will find their own special place in the woods using it as a source of inspiration throughout the week. From saplings to hatchlings, we'll scout the woods, meadows and ponds for signs of spring and notice changes throughout the week. We'll venture to less traveled places, such as Whittemore's special wetlands to study the life of frogs and insects. We'll also imitate frog and bird choruses and make instruments from natural objects to create Whittemore's first musical group.
